

PORTABLE INSTALERT VARIABLE MESSAGE SIGNS

Rapidly Share Messages for Storm Preparedness & Response

USE INSTALERT SIGNS TO SHARE:

- **Advance Warnings** – Display urgent messages about severe weather alerts, expected impact, preparedness tips, and evacuation orders
- **Evacuation Routes** – Direct people to the safest evacuation routes and detours around hazards or road closures
- **Relief and Assistance Information** – Promote local resources available to citizens in need and share updates about recovery efforts
- **Urgent Updates** – Provide rapid alerts about changing weather conditions and emergency developments

ATS 5 Trailer Option

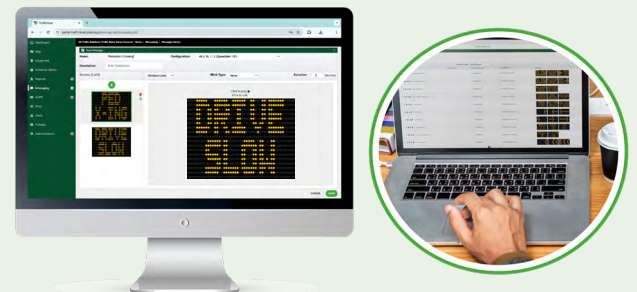

Hitch Mount Option

Portable Post Mounting Option

KEY FEATURES

- **Quick Setup** – Deploy on a portable post, vehicle hitch, trailer, or pole in a matter of minutes
- **Unmatched Portability** – InstAlert is the only variable message sign on the market that folds in half for easy transport & storage
- **Versatile Messaging** – Display up to six screens of custom text and graphics
- **Rugged Durability** – Weatherproof & built to last up to 10+ years
- **Remote Management** – Manage & monitor via TrafficCloud® portal to save time

TRAFFICCLOUD® REMOTE MANAGEMENT PORTAL

Change Messages on the Fly From Anywhere During Emergencies

Simply log into TrafficCloud® from your computer, tablet, or smartphone to:

- **Create custom messages and graphics** for signs
- **Send messages to display on one sign or multiple** simultaneously
- **Schedule messages in advance** to display on specific dates/times
- **Receive email and text message alerts** for low power, sign tampering, and sign location changes
- **Monitor the location & status of all your signs** at a glance on an interactive map
